Agency Confirmation of BA Social Work Field Placement & Contractual Agreement with Agency as a Field Site
Revised 8/25/16

Name of BA Student: ________________________________________

Administration of Field instruction is in keeping with the plan outlined in the Field Instruction Manual. Students are required to complete 440 clock hours at the agency for which they receive 11 university credit hours. Students may choose to serve the agency for a longer time in the semester, but only with the permission of the Agency Instructor and Field Director; students in this situation complete an additional 40 to 160 clock hours during the practicum for an additional 1 to 4 university credit hours.

In providing a field placement for the UNI student, the agency has agreed to the following:

1. All agency instructors supervising the student have viewed the complete Agency Instructor Orientation video found at www.uni.edu/csbs/socialwork under "Field Instruction".
2. Weekly field placement supervision of the student.
3. Allotment of time for the Agency Instructor to complete student assessments.
4. A student is not assigned a workload as extensive or at the same level of professional independence as a staff professional. This is done to ensure the student ample time to learn and reflect on the new experiences encountered.
5. A student is not assigned agency work during the times scheduled for field placement seminars or other educational activities required through field placement.
6. The agency provides a field setting that affirms and respects diversity and difference in staff, populations served and students completing their field experience.

The following expectations have been reviewed with the student:

- How differences or conflicts are to be handled.
- How variations in field placement time will be handled (for example, university breaks).
- The guidelines the student should follow in relating to other staff, administration, board members, other agencies, and the community in general.
- Personnel policies that apply to students.

The student is accepted by the agency for field placement: _____ Yes _____ No

Agency comments:
________________________________________________________________________________________
________________________________________________________________________________________

The student has been informed of the above decision regarding placement: _____ Yes _____ No
Beginning Date of Student Placement: __________________________

Important notation to agency:
Students in field placement are entitled to all scheduled university breaks. Once a student begins the field placement, or at the interview for placement, please clearly define the time periods, other than university classes and required educational events, when the student does not plan to be in field placement (for example: university breaks, finals week, religious holidays, times agency is closed, etc.):
